

OPEN HOUSE
“BROOKWOOD / WITCH HAZEL AT TV HIGHWAY INTERSECTION PROJECT”
MEET THE CONTRACTOR

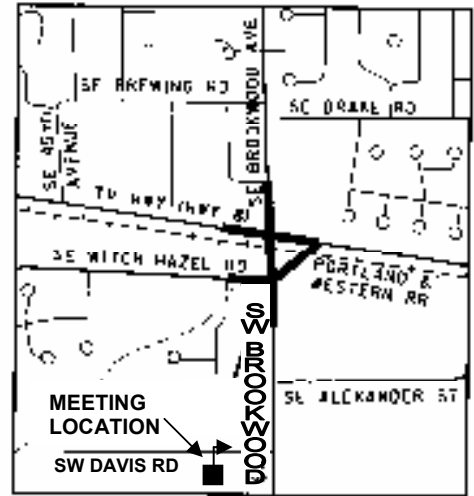

Please join your neighbors and staff from the Washington County Department of Land Use and Transportation at an Open House at the new Witch Hazel Elementary School on SW Brookwood. In August of this year Capital Concrete Construction, Inc. was awarded the contract to construct the improvements. Come see the completed design drawings and learn about the construction schedule. Staff will be available to answer your questions.

September 27, 2006 5:00 to 7:00 PM at Witch Hazel Elementary School

Project Description - The purpose of this project is to realign the intersection of Brookwood Avenue to connect with 247th Avenue at Witch Hazel Road. The goals of the improvements are to address the poor traffic operations, safety deficiencies, and increase the traffic capacity of the intersection. The design approach will balance the needs for safety, transportation planning, community livability, and environmental resources for this project while carrying forward the goals of the 2004 WitchHazel Community Plan Task Force and the Technical Advisory Committee.

The proposed improvements will extend Brookwood Avenue south and connect it to 247th Avenue, creating a realigned 4-legged intersection with TV Highway. The Witch Hazel / TV Highway intersection will be eliminated.
